## **Camping and Residential visits**

As and when restrictions allow, we will also begin to open up for camping and indoor residential. We are taking provisional bookings for these now.

## Reception

It's obviously been a very difficult year financially and the rest of the year and going into 2022 will very much be a recovery year for us. We are running with a much smaller but hopefully very efficient team this year. Please be patient with us, we are all working to help support your visits in the best way we can. At the moment we are still working from email communication only. If you need a call back please email us and let us know when a convenient time to call you would be.

Reception will open on a fairly flexible basis this year and that's why we ask that you make enquiries by email where possible. If you do need a call back, email us initially to arrange this. On days when we have no bookings, we will close the site so site visits are strictly by appointment only so to avoid disappointment please do not just turn up.

## Volunteering opportunities:

We currently have the following exciting volunteering opportunities:

Residential work placement April through to August. - A fantastic opportunity for any young person who is looking to gain some work experience in the outdoor industry. Full board and accommodation included. To apply please email
